Yousef Nabil

Generative AI Engineer

Dubai, UAE | yousef.nabil@example.com | +971 50 555 0103 | linkedin.com/in/yousef-nabil-ai

PROFESSIONAL SUMMARY

Generative AI Engineer focused on RAG systems, LLM applications, and AI agents. Experienced with Python, LangChain, vector databases, prompt engineering, and API integrations.

CORE SKILLS

Python • OpenAI API • LangChain • LangGraph • RAG • Prompt Engineering • FAISS • Pinecone • FastAPI • Docker

EXPERIENCE

Generative AI Engineer | Aster Labs *2024 - Present*

- Built RAG assistants over internal documents with citation-based responses.
- Developed agent workflows for support triage and business process automation.
- Integrated LLM services with CRM and knowledge-base APIs.

AI Software Engineer | CloudNest *2023 - 2024*

- Created prompt templates, evaluation datasets, and retrieval pipelines.
- Implemented REST APIs for AI features using FastAPI.

EDUCATION

B.Sc. Software Engineering, German Jordanian University, 2023

SELECTED PROJECTS

- Enterprise Knowledge Assistant - RAG + Pinecone
- Support Routing Agent - LangGraph + tool calling

CERTIFICATIONS

Generative AI with Large Language Models - DeepLearning.AI
