Omar Khalil

Machine Learning Engineer

Cairo, Egypt | omar.khalil@example.com | +20 100 555 0101 | linkedin.com/in/omar-khalil-ml

PROFESSIONAL SUMMARY

Machine Learning Engineer with 3+ years of experience building predictive models, feature pipelines, and production ML APIs. Strong in Python, scikit-learn, model evaluation, and practical MLOps.

CORE SKILLS

Python • Pandas • NumPy • scikit-learn • XGBoost • MLflow • FastAPI • Docker • SQL • Git

EXPERIENCE

Machine Learning Engineer | Nova Analytics *2024 - Present*

- Built classification and regression models for customer risk and demand forecasting.
- Created reusable preprocessing pipelines and model evaluation reports.
- Deployed selected models as FastAPI services using Docker.

Junior Data Scientist | InsightWorks *2022 - 2024*

- Prepared and analyzed structured business datasets using Python and SQL.
- Improved model performance through feature engineering and hyperparameter tuning.

EDUCATION

B.Sc. Computer Science, Ain Shams University, 2022

SELECTED PROJECTS

- Customer Churn Prediction - XGBoost, SHAP, FastAPI
- Sales Forecasting - time-series features and model comparison

CERTIFICATIONS

Machine Learning Specialization - Coursera

Synthetic CV for training/demo purposes
